

Town of New Haven
February 28, 2023–Board Meeting

1. Water Service Area #9

- a. A construction meeting was held last Friday. Mainline and service installation is complete. County Route 64, Johnson Road, and Hanson Road have been approved for public use by the Department of Health. We have sent packets to those residents with information on how to connect to the new system. Testing and Disinfection continues in other areas. We are currently reviewing and processing sample results for Mud Lake Road, Lee Road, Sundown Road, and County Route 1. Once we receive DOH approval for these areas, we will send out packets to those residents. Restoration will be completed in the spring.
- b. We are working to submit USDA Rural Development's "Prior to Closing" documents to close on the permanent financing for the project. We will update the Town once the closing is scheduled.
- c. Form E's to be signed.

Action Items for Board's consideration:

1. Form E's signed
