RE: Controlled Demolition, 4279 NY State Route 104, New Haven NY.

Contento's is pleased to present the following proposal for the controlled demolition of the building at the above listed location. Contento's to remove approximately 100 sf of friable ceiling tiles. Once friable abatement is complete, a variance must be obtained to demolish the building with non-friable asbestos in place. Debris will be disposed of as non-friable asbestos at Oswego county landfill. Foundation to remain. Block from exterior walls to be decontaminated and staged on site. No backfill is included. No other site removals are included. A NYS DOL 10-day waiting period and NYSDOL variance are applicable for this project. No NYSDOL notification fee is included.

Contento's to obtain demolition permit. Customer is responsible for hiring a 3rd party air monitoring firm. Price assumes prevailing wage for onsite work.

Labor, materials, equipment, and tipping fees for waste included in proposal.
All solid waste will be disposed of according to NYS DEC NYCRR parts 360 solid waste laws.

NYSOL Notification Fee:	N/A
Controlled Demolition:	\$30,000.00
TOTAL:	\$30,000.00

Authorization

If the proposal is understood and accepted, please sign and return a copy to Contento's along with any additional reference documentation such as a purchase order and/or tax exemption certificate. By accepting this proposal, the Client authorizes Contento's to commence the services as described above. Work will conform to local, state and federal regulations. Other work beyond the scope of work described above, unless agreed to in writing, will be billed at the current time and material rates.

This proposal is valid for a period of thirty (30) days from the above date and subject to confirmation thereafter. Terms of payment is Net 30. Interest will be applied at the rate of 1.5% per month. If terms are not met, Client agrees to pay all reasonable costs for collection including but not limited to court costs, costs of collection and any reasonable attorney's fees. Client agrees that any legal action for any dispute arising from this agreement shall be held in Cortland County, State of New York; Governed by the State of New York laws.

To the fullest extent permitted by law, the customer agrees to defend, indemnify, and hold harmless Contento's against loss, damage, or expense, including legal fees, by reasons of suits, claims, demands, judgements, and causes of action for personal injury, death, or property damage rising out of or in any way in consequence of the performance of all work undertaken by Contento's except that in no instance shall the customer be held responsible for any liability claim demand or cause of action attributable solely to the negligence of Contento's or our subcontractors.

Estimate # 26-MC36713

Date 06/16/2026

Business / Tax # 47-4218485

Description

Asbestos Abatement - Scope of Work

Expert Environmental & Construction Group, LLC (EECG) proposes to furnish all labor, materials, equipment, supervision, transportation, packaging, disposal, notifications, and project management necessary to perform asbestos abatement of the identified asbestos-containing materials (ACM) at the Old Highway Barn located at 4279 NY State Route 104, New Haven, New York.

The proposed scope includes the following materials and estimated quantities:

- Approximately 3,600 square feet of asbestos-containing black rolled roofing (1.9% Chrysotile) located beneath the existing metal roofing system.
- Approximately 200 square feet of asbestos-containing flashing tar/cement (1.5% Chrysotile) located along roof edges, penetrations, and various roofing transitions.
- Approximately 100 square feet of asbestos-containing 2' x 4' ceiling tile (1.7% Chrysotile) located within the office area.

*All asbestos-containing materials shall be removed, packaged, transported, and disposed of in accordance with applicable NYS Industrial Code Rule 56 requirements, OSHA regulations, EPA requirements, and all other applicable federal, state, and local regulations.

PROJECT ASSUMPTIONS AND EXCLUSIONS

*Roofing quantities are based upon the asbestos survey report and have not been field verified by EECG.

*Existing metal roofing removal, replacement, reinstallation, roofing repairs, and weatherproofing are excluded unless specifically identified herein.

- *Pricing assumes access to all work areas can be achieved utilizing existing site conditions.
- *Pricing assumes prevailing wage rates where applicable.
- *Waste transportation and disposal of ACM generated from the above-described scope is included.
- *Final quantities shall be verified during a mandatory pre-construction site visit.
- *This proposal has been prepared based solely upon the asbestos survey information provided and without the benefit of a site visit. A site visit by EECG shall be required prior to contract execution and mobilization to verify site conditions, quantities, accessibility, work sequencing, roof construction details, substrate conditions, utility impacts, and other project-specific conditions that may affect the scope of work or pricing.
- *The proposal amount does not include any third-party consulting, asbestos project design, project monitoring, air monitoring, project oversight, final visual inspections, clearance air sampling, laboratory analysis, or any other professional services that may be required by the New York State Department of Labor Industrial Code Rule 56.
- *Any required asbestos project monitoring, air sampling, project design, project oversight, final clearance testing, or other third-party services shall be retained directly by the Owner and shall be at the Owner's sole expense.

ACCESSIBILITY DISCLAIMER: Repairs, encapsulation, and/or removal of asbestos will be made to accessible areas only. Areas that are inaccessible to properly contain the asbestos for removal OR will cause a safety concern for the abatement worker OR will cause a safety concern for the building will not be handled as part of this proposal and is not the responsibility of EECG. Asbestos may have previously fallen into and within wall cavities/voids/cracks/crevices/wiring holes/duct plenums/etc. not at the responsibility of EECG. Our scope of work includes removing the accessible asbestos only, it does not include us dismantling framing members, cavities, wall coverings, flooring systems, soffits, voids or digging/drilling to access the asbestos material and is not the responsibility of EECG. Inaccessible areas such as soffits/framing members/behind wall coverings/scuttle holes/flooring systems/cantilevers/etc. are not part of our work area and can not be properly cleaned/visually inspected without dismantling and is not included in this cost estimate and not at the responsibility of EECG.

3rd Party Asbestos Abatement Air Monitoring

\$00.00 = Additional Abatement Cost Consideration: (Budget \$1,000 to \$1,800) *Air Monitoring/Visual Inspection and/or Variance Assessment/Fees (By Independent Third Party – must be hired directly by owner / owner's agent) The owner/owner's agent will need to independently verify costs and independently hire the consulting firm to perform their scope of work according to Industrial Code Rule 56.

Asbestos - Assumptions

The pricing for this project is based upon the following assumptions:

- *Customer shall have all areas clear for abatement prior to arrival.
- *All work under adherence to local, state and federal requirements.
- *Expert Environmental to provide state and federal notifications as necessary.
- *Expert Environmental to provide disposal costs/manifest documentation as necessary.
- *Owner responsible for all 3rd party monitoring, variance requirements and costs where necessary.
- *Owner to provide all water and temporary electric connections to complete this project.
- *Work area electrical lockouts and HVAC isolations to be provided by certified others where necessary.
- *Owner to provide all temporary heating/cooling and fuel if necessary to complete this project.
- *You may experience staple and duct tape markings due to necessary containment barriers, EECG

will attempt to minimize damages but is not responsible for any repairs.

*Pricing is based upon the complete award of this phase of work. All work is to be completed in one mobilization.

*Pricing assumes no additional non-ACM selective demolition to remove the ACM.

*Pricing assumes no additional site specific variance submittals are necessary for the described SOW.

*Pricing is based upon confirmatory site condition visitation and issuance of contract prior to award.

*All work is to be assumed non-union participation. Wages based upon private wage rates.

*Prices are based upon eight-hour or ten-hour, on site and non-overtime working shifts, Monday through Friday. Night, weekend, holiday shifts or any variation of schedule shall require additional compensation.

*Price does not include sales tax if applicable for this project. Quote may be withdrawn if not accepted within 30 days.

*Terms and Conditions on subsequent pages are part of this agreement. No retainage is to be held.

Capital Improvement

If a properly filled out and signed ST-124 Capital Improvement Form for this specific project is received and can comply with all applicable guidelines you will not be charged sales tax.

A capital improvement to real property is an addition or alteration to real property that: (a) substantially adds to the value of the real property or appreciably prolongs the useful life of the real property, and (b) becomes part of the real property or is permanently affixed to the real property so that removal would cause material damage to the property or article itself, and is intended to become a permanent installation.

Total	\$46,215.00

A+ BBB RATING - 20 Years Experience - Federal & State Certified - 5 Star Reviews - Insured Staff

This Contract, made in compliance with New York General Business Law, Article 36-A, is entered into as of the date first written above between the Owner (listed above) and Contractor (Expert Environmental & Construction Group, LLC).

Material Safety Data Sheets (SDS) are updated, located and accessible online for your reference at www.expertenv.com/safetylabels. If you require to have a printed copy issued of any or all materials please make a representative aware of this request.

1. **DEPOSIT OF PAYMENTS:** Unless the Contractor is paid on a time and materials basis, the Contractor shall deposit any payments received by the Owner prior to substantial completion in Canandagua National Bank within five business days of receipt of the payment. Contractor shall not withdraw any portion of such payments in excess of the amount shown in the above Schedule of Payments. Payment is due within five (5) days after each phase is complete, if applicable, and/or after final completion.
2. **CONTRACT PERIOD:** The approximate dates when the work will begin is as outlined in the estimate and mutually agreed upon in writing. Substantial completion means that the project, although not complete in all respects, is usable for its intended purpose.
3. **CONTINGENCIES:** Any contingencies or possible events, which the parties are aware of, that might materially delay the approximate completion date are listed as outlined in the estimate and mutually agreed upon in writing. The services outlined have a completion date that is not of the essence.
4. **UNCONTROLLABLE DELAYS:** If the Contractor is delayed in the progress of the work by labor disputes, fire, acts of God, unusual delay in transportation or availability of materials, unusually adverse weather or any other causes beyond the Contractor's control, the date(s) for Contractor's performance shall be equitably extended.
5. **UNSEEN CONDITIONS:** In the event Contractor encounters concealed conditions in the performance of the work, which differ materially from the conditions indicated in the contract documents or from those conditions ordinarily found in similar work, or if the Contractor is unable to access the work area due to obstructions of any kind, the Contract amount and time shall be subject to equitable adjustment.
6. **CONTRACTOR SERVICES:** Contractor agrees to perform the work in a professional and workman-like manner, using the Contractor's best skill and attention; to provide and pay for labor, materials, taxes, tools, transportation and other services necessary for proper completion of the work. The procurement of all required permits, fees and inspections, however, shall remain the Owner's responsibility. The Contractor shall keep the Owner's premises and surrounding area free from accumulation of debris and trash related to the work.
7. **SAFETY:** Contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs, including all those required by law in connection with the performance of the work.
8. **WARRANTIES:** Contractor warrants to the Owner that (1) material and equipment furnished by the Contractor shall be of good quality, (2) the work will be free from defects, (3) the work will conform to the requirements of the Contract, and (4) for a period of six months after substantial completion the Contractor shall correct any work found to be defective.
9. **CHANGE IN WORK:** Should the Owner order changes in the work consisting of additions, deletions or changes, the Contract amount and time will be adjusted accordingly. This Contract may only be amended or modified by written agreement signed by both the parties.

10. **MECHANICS' LIENS:** The contractor or subcontractor who performs on the contract, or the materialman who provides home improvement goods or services and is not paid, may have a claim which may be enforced against the Owner's real property in accordance with applicable lien laws. Any contractor, subcontractor, or materialman who provides home improvement goods or services pursuant to your home improvement contract and who is not paid may have a valid legal claim against your property known as mechanic's lien. Any mechanic's lien filed against your property may be discharged. Payment of the agreed-upon price under the home improvement contract prior to filing a mechanic's lien may invalidate such lien. The owner may contact an attorney to determine his rights to discharge a mechanic's lien.

11. **OWNER'S RIGHT OF CANCELLATION:** In addition to any right otherwise to revoke an offer, the Owner or his/her representative may cancel this Contract until midnight of the third business day after the day on which the Owner signed the Contract. Cancellation occurs when written notice of cancellation is deposited in a mailbox properly addressed and postage prepaid. Notice of cancellation is sufficient if it indicates the intention of the Owner not to be bound. Owner's right of cancellation does not apply to a transaction in which the Owner has initiated contact with the Contractor, the home improvement is needed to meet a true emergency of the Owner, and the Owner furnished the Contractor with a separate dated and signed personal statement in the Owner's handwriting describing the situation requiring immediate remedy and expressly acknowledging and waiving the right to cancel the Contract within three business days.

12. **SUSPENSION AND TERMINATION:** If payments are not made when due Contractor may suspend work on the Contract until all due payments have been received, or upon an additional five days' notice to Owner may terminate this Contract. Owner agrees to reimburse Contractor for Contractor's costs and expenses, including reasonable attorneys' fees, incurred by Contractor to enforce its rights under this Contract.

13. **INDEMNIFICATION:** To the fullest extent permitted by law, the Owner agrees to indemnify and hold the Contractor harmless from and against any claims, damages, losses and expenses, including attorneys' fees, arising out of or resulting from Contractor's performance of the work, provided that such claims, damages, loss or expenses are attributable to bodily injury, sickness, disease or death, or to damage to or destruction of tangible property (other than the work itself) including loss of use resulting therefrom but only to the extent caused in whole or in part by negligent acts or omissions of the Contractor, a subcontractor, or anyone directly or indirectly employed by them or anyone for whose acts they may be liable, regardless of whether or not such claim, damage, loss or expense is caused in part by a party indemnified hereunder.

14. **OTHER TERMS AND CONDITIONS:** As outlined in the estimate and mutually agreed upon in writing.

15. **ENTIRE AGREEMENT:** This Contract represents the entire agreement between the parties, and supersedes all prior negotiations, representations or agreements, either written or verbal.

16. **ACCESS AND PROPERTY MOBILIZATION:** EECG must have clear access to the workspace at all times. In addition, the owner or owner's agent must follow all prep instructions prior to mobilization. Failure to do so may result in additional costs.

17. **ENVIRONMENTAL TESTING:** All building materials must be tested for potential regulated building material hazards if certain renovation and/or demolition activities are to occur as part of this agreement. The owner or owner's agent(s) agrees to provide such certified testing results or provide access and pay an additional fee for EECG to provide such testing services prior to any renovation and/or demolition.

18. **CHANGES & ADDITIONS OF WORK:** Any additional findings or variations in the original scope

of work will be billed accordingly with notification made to owner or owner agents and prior to performing the additional work. Prices are based upon eight-hour working shifts, Monday through Friday. Night, weekend, holiday shifts or any variation of schedule shall require additional compensation. All labor wages are based upon non-prevailing rates unless otherwise noted.

19. CANCELLATION: Shall be done at least 48 hours prior to any scheduled appointment otherwise the customer will be charged for the service, including any applicable mark-up, fees, and/or associated costs. In the case of emergency services calls where the pricing on this agreement is listed as TBD (to be determined) or left blank both parties agree that the Xactimate © pricing methodology based upon square foot measurement and standard industry charges will be the preferred pricing model and will be used for all services rendered unless otherwise agreed upon.

20. HAZARDOUS MATERIAL ABATEMENT (Mold, Asbestos, Radon, VOCs, Lead, PCB's, Contaminated Soil, Sewage, Bio-Hazardous, etc.) SPECIFICATIONS: EECG is not responsible for hazardous containing materials found on site unless specifically contracted for their abatement as described in the scope of work of this estimate.

21. FUTURE DAMAGE AND SERVICES: EECG is not responsible and does not guarantee against present or future damage to the building/property or contents, or provide for the repair and replacement thereof.

22. LIMITATION OF LIABILITY: The Customer expressly releases EECG for liability for personal injury or property damage (to include the structure or contents) caused by any remediation or abatement activities, except to the extent caused solely by EECG's own negligence. The Customer agrees that under no circumstances shall EECG be liable for any amount greater than the amount paid to EECG. In no event will EECG be responsible for consequential damages for loss of use of property. Any claim by the Customer for damages must be made in writing within one (1) year of the incident at issue or it will be deemed waived.

23. DISCLAIMERS: The guarantees as specifically stated in this Agreement is in lieu of any other guarantee, warranty, express or implied, including any warranty of habitability, merchantability or fitness for a particular purpose. Air quality testing and surface/bulk sampling performed by EECG are for informational purposes only and performed to determine the presence of mold/asbestos/lead-based paint/radon, etc. Further certified testing can be chosen if so requested. Quantified results in no way represent a health-related report, nor do we present the findings as a health-related report. Individuals with health problems that appear to be related to an environmental pollutant should see their physicians for a referral to professionals who are trained in occupational/environmental medicine or related specialties and are knowledgeable about these types of exposures. Decisions about removing individuals from an affected area must be based on the results of such medical evaluation. EECG representatives cannot determine whether or not an individual should remain in the affected area. EECG does not warranty or guarantee against clearance air quality testing post-remediation unless expressly stated in the original scope of work. EECG clearance post-remediation applies strictly to the treated surfaces, not the air quality, unless otherwise stated in the scope of work. EECG shall not claim responsibility for any health issues related to the process of the testing, environmental changes, and remediation. The owner/occupant is responsible for monitoring and inspecting the degree of reasonable control and keeping EECG informed of any changes in condition of the remediation process. EECG is not responsible for state and local codes and findings regarding health problems from the existing structure. EECG is not responsible for informing the

owner/occupant of what conditions will or will not relate to health issues. This treatment is not a medical or health inspection, we will only identify and treat conditions that we expressly agree to identify and treat, and for which we are licensed.

24. CHANGES IN LAW: EECG performs its services in accordance with the requirements of federal, state and local law. In the event of a change in existing law, as it pertains to the services herein, EECG reserves the right to revise the service charge or terminate this Agreement.

25. DEFAULT: In the case of non-payment or breach by the customer, EECG has the right to terminate this Agreement and demand full payment owed, plus any applicable interest, costs and fees including but not limited to reasonable attorney's fees.

26. SALES TAX: Sales tax exempt certificates or capital improvement certificates must be submitted and approved or else sales tax will be charged for applicable services rendered. All professional consulting services provided are sales tax exempt in accordance of the appropriate tax laws.

27. APPLICABILITY OF CAPITAL IMPROVEMENT: A capital improvement to real property is an addition or alteration to real property that: (a) substantially adds to the value of the real property or appreciably prolongs the useful life of the real property, and (b) becomes part of the real property or is permanently affixed to the real property so that removal would cause material damage to the property or article itself, and is intended to become a permanent installation. When you the customer signs this estimate and gives it to the contractor, who accepts it in good faith, it is evidence that the work to be performed will result in a capital improvement to real property. The work performed by the contractor must meet all three of these requirements to be considered a capital improvement. Repair and maintenance relates to keeping real property in a condition of fitness, efficiency, readiness and/or safety or to restoring to such condition. In the case of a project that exclusively constitutes repair or maintenance services only, the project does not qualify as a capital improvement and is subject to sales tax. If a contractor performs work that constitutes a capital improvement, the contractor must pay tax on the purchase of building materials or other tangible personal property, but is not required to collect tax from the customer for the capital improvement. For guidance as to whether a job is a repair or a capital improvement, see Publication 862, Sales and Use Tax Classifications of Capital Improvements and Repairs to Real Property. If a contractor gets a properly completed Form ST-124 from the customer within 90 days after rendering services, and accepts it in good faith, the customer bears the burden of proving the job or transaction was not taxable. If a contractor does not get a properly completed Certificate of Capital Improvement within 90 days, the contractor bears the burden of proving the work or transaction was a capital improvement. The failure to get a properly completed certificate, however, does not change the taxable status of a transaction; a contractor may still show that the transaction was a capital improvement.

By signing this estimate, you the owner certify and understand that:

*I am the owner of the real property identified on this estimate; and

*the work described above will result in a capital improvement to the real property within the guidelines of this estimate; and

*this contract does not include the sale of any tangible personal property that, when installed, does not

become a permanent part of the real property (for example, a free-standing microwave or washing machine).

*I will be responsible for any sales tax, interest, and penalty due on the contractor's total charge for tangible personal property and for labor if it is determined that this work does not qualify as

a capital improvement; and

*I will be required to pay the contractor the appropriate sales tax on tangible personal property (and any associated services) transferred to me pursuant to this contract when the property installed by the contractor does not become a permanent part of the real property; and

*I will be subject to civil or criminal penalties (or both) under the Tax Law if I issue a false or fraudulent certificate.

28. ARBITRATION: Any Commercial customer (including any Insurance company or third-party claiming through customer) and EECG agree that all matters in dispute between them, including but not limited, to any controversy or claim arising out of or relating to this Agreement or to the identified property in any way, whether by virtue of contract, tort or otherwise, shall be settled exclusively by Arbitration. In the event of arbitration, the Customer shall be responsible for all EECG costs and attorney fees. In the event of a dispute regarding this provision, the parties consent to the personal jurisdiction and venue of the courts of the State of New York. This arbitration provision is only binding to customers/owners/agents contracting a commercial property with EECG.

29. REFUND POLICY: Any refund requests must be made in writing and the response to the request for refunds will also be made in writing. All refunds shall be mailed to Expert Environmental & Construction Group, 620 Park Avenue, Suite 135, Rochester, NY 14607. Be aware any refunds may void any warranty or guarantees made on the property by EECG. EECG will not offer refunds of money for any services performed pursuant to this agreement. Full year programs paid up front are considered serviced and paid in full after our initial treatment and not subject to full or partial refunds.

30. PAYMENT TERMS: Half of the total contract payment is due at time of signing, the remaining balance is due upon the first day of the project. Transfer of contract, sampling, survey documents, etc. payment is due in full prior to transmittal. Ask about our special financing programs for credit card payments and low interest loans to assist funding your project. If your check is returned for non-sufficient funds, you expressly authorize your account to be electronically debited or bank drafted for the amount of the check plus any applicable fees. The use of a check for payment is your acknowledgement and acceptance of this policy and its terms and conditions.

By signing below, I represent that: (1) I am an authorized representative for the service address above and have the authority to bind the contracting party; (2) I have read this Agreement in its entirety, including the Terms and Conditions and I fully and understand the service(s) proposed. The parties agree that this agreement may be electronically signed. The parties agree that the electronic signatures appearing on this agreement are the same as handwritten signatures for the purposes of validity, enforceability and admissibility.

Asbestos Abatement Proposal**

Dear Mr. Little,

Summit Environmental Services is pleased to present the following costs for the asbestos abatement work to be performed at **4279 NY State Route 104, New Haven.**

Summit Environmental Services, Inc. will provide all labor, materials, and disposal of the ACM as per the provided asbestos bulk sampling report. The removal of approximately **100 SF of 2'x4' ceiling tile, 3,600 SF of black rolled roofing, 200 SF of flashing and the associated debris** be completed for the sum of:

Proposed Price for ACM: \$52,227.00

- *This price is based upon Prevailing Wage (\$64.04).*
- *This price includes a \$6,000,000 limit for General Liability, Pollution Liability and Professional Liability.*
- *Water and Power to be provided on site by the owner.*
- *It is the owner/owners rep. to hire a 3rd party Air Monitoring/ Inspection Firm if applicable.*
- *The price above includes OSHA air sampling.*
- *This price includes the required NYSDOL (\$2,000.00) fee and the EPA Notification.*
- *This price includes the necessary NYSDOL Asbestos site-specific variance (\$1,000.00).*

Thank you for the opportunity to provide a quote on this project. If you have any questions, please do not hesitate to contact me. I look forward to hearing from you soon.

Sincerely,
Joseph Bryant
